Independent Auditor's Report

To the Board of Education
Oskaloosa Community School District
Oskaloosa, Iowa

We have audited the accompanying financial statements of the governmental activities, the business type activities, each major fund and the aggregate remaining fund information of Oskaloosa Community School District, Oskaloosa, Iowa, as of and for the year ended June 30, 2010, which collectively comprise the District's basic financial statements listed in the table of contents. These financial statements are the responsibility of District officials. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business type activities, each major fund and the aggregate remaining fund information of Oskaloosa Community School District at June 30, 2010, and the respective changes in financial position and cash flows, where applicable, for the year then ended in conformity with U.S. generally accepted accounting principles.

In accordance with *Government Auditing Standards*, we have also issued our report dated January 31, 2011 on our consideration of Oskaloosa Community School District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

Management's Discussion and Analysis, Schedule of Funding Progress for the Retiree Health Plan, and Budgetary Comparison Information on pages 5 through 12 and 42 through 44 are not required parts of the basic financial statements, but are supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. We did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Oskaloosa Community School District's basic financial statements. Another CPA firm previously audited, in accordance with the standards referred to in the second paragraph of this report, the financial statements for the four years ending June 30, 2005 and we audited the financial statements for the four years ended June 30, 2009 (which are not presented herein) and expressed unqualified opinions on those financial statements. Other supplementary information included in Schedules 1 through 8, including the Schedule of Expenditures of Federal Awards required by U.S. Office of Management and Budget (OMB) Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in our audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

January 31, 2011

This section of the Oskaloosa Community School District's comprehensive annual financial report presents the discussion and analysis of the District's financial performance during the fiscal year ended June 30, 2010. The analysis focuses on the District's financial performance as a whole. Please read it in conjunction with the District's financial statements, which immediately follow this section.

The Oskaloosa Community School District implemented new reporting standards for the 2003 fiscal year that involved significant changes in content and structure of the reports. Because of this change, the current reports can be more easily compared to the prior years.

FINANCIAL HIGHLIGHTS

The District has now fully completed all of the major construction, renovation, and repair projects planned for the period from 2000-2007. To finance these projects, the District issued capital loan notes in the amount of \$2,530,000 in 2002-2003, Local Option Sales and Services Tax Revenue Bonds totaling \$5,760,000 in 2002-2003, Local Option Sales Tax Bonds in the amount of \$13,140,000 in 2003-2004, and Local Option Sales Tax Bonds in the amount of \$1,910,000 in 2005. Bonds associated with the School Infrastructure Local Option Sales Tax were refinanced in 2008, and the details of the District's long-term debt are detailed in the Notes to Financial Statements. Refinancing of the bonds associated with Local Option Sales Tax revenues from the City of Oskaloosa and Mahaska County is anticipated, and revenues in excess of the projected requirements have made repayments on all bonds predictable.

General Fund revenues decreased from \$21,991,913 in fiscal year 2009 to \$21,751,852 in 2010, while General Fund expenditures increased from \$21,905,224 in 2009 to \$21,925,632 in fiscal year 2010. This resulted in a decrease in the District's General Fund fund balance from (\$290,405) in fiscal year 2009 to (\$462,328) in 2010, a decrease of \$171,923.

The decrease in revenues occurred due to losses to State Aid resulting from an across-the-board budget cut of 10% executed by the Governor in October of 2009. The increase in expenditures was attributable to negotiated wage and benefit increases as well as the increased cost of providing transportation services.

Interest income on investments for the General Fund for the last five fiscal years has been as follows: 2006 – \$215,439; 2007 – \$82,194; 2008 – \$174,732; 2009 – \$117,793; and 2010 -- \$63,379.

OVERVIEW OF FINANCIAL STATEMENTS

This report consists of four parts: Management's Discussion and Analysis (this section), the basic financial statements, required supplementary information, and other supplementary information. The basic financial statements include two kinds of statements that present different views of the District.

The first two statements are government-wide financial statements that provide both short-term and long-term information about the District's overall financial status.

The remaining statements are fund financial statements that focus on individual parts of the District by reporting the District's operations in more detail than the government-wide statements.

The governmental funds statements explain how basic services such as regular and special education were financed in the short term as well as what remains for future spending.

Proprietary funds statements offer short-term and long-term financial information about activities the District operates like businesses, such as Food Service.

Fiduciary funds statements provide information about the financial relationships in which the District acts solely as a trustee or agent for the benefit of others.

The financial statements also include notes that explain some of the information in the statements and provide more detailed data. The statements are followed by a section of required supplementary information that further explains and supports the financial statements with a comparison of the District's budget for the year.

Figure A-1 shows how the various parts of this annual report are arranged and relate to one another.

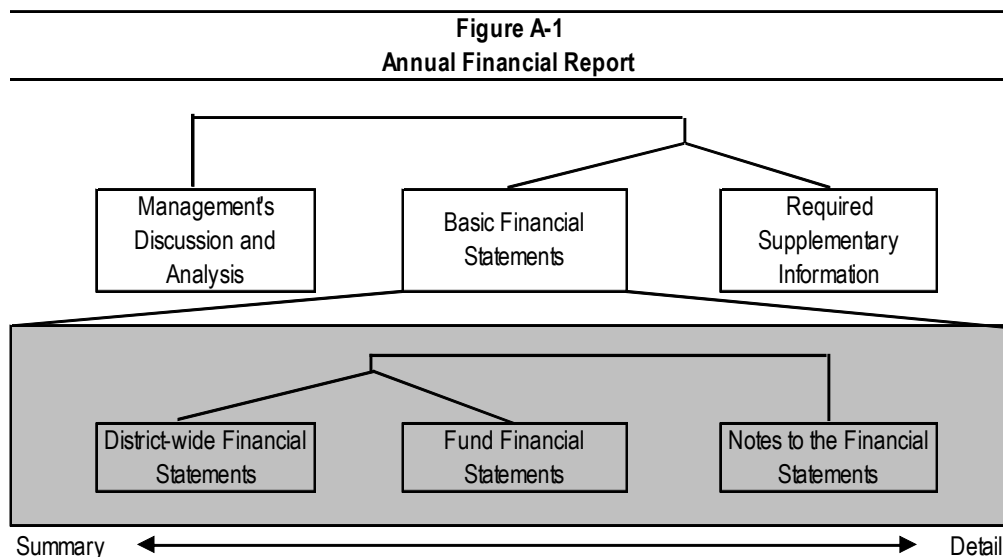

Figure A-2 summarizes the major features of the District's Financial Statements, including the portion of the District's activities they cover and the types of information they contain. The remainder of this overview section of the Management's Discussion and Analysis highlights the structure and contents of each of the statements.

Figure A-2				
Major Features of the District-wide and Fund Financial Statements				
	District-wide Statements	Fund Statements		
		Governmental Funds	Proprietary Funds	Fiduciary Funds
Scope	Entire district (except fiduciary funds)	The activities of the district that are not proprietary or fiduciary, such as the special education and building maintenance	Activities the district operates similar to private businesses: food services and adult education	Instances in which the district administers resources on behalf of someone else, such as scholarship programs and student activities monies
Required financial statements	* Statement of net assets * Statement of activities	* Balance sheet * Statement of revenues, expenditures, and changes in fund balances	* Statement of net assets * Statement of revenues, expenses and changes in net assets * Statement of cash flows	* Statement of fiduciary net assets * Statement of changes in fiduciary net assets
Accounting basis and measurement focus	Accrual accounting and economic resources focus	Modified accrual accounting and current financial resources focus	Accrual accounting and economic resources focus	Accrual accounting and economic resources focus
Type of asset/liability information	All assets and liabilities, both financial and capital, short-term and long-term	Generally assets expected to be used up and liabilities that come due during the year; or soon thereafter; no capital assets or long-term liabilities included	All assets and liabilities, both financial and capital, and short-term and long-term	All assets and liabilities, both short-term and long-term; funds do not currently contain capital assets, although they can
Type of inflow/outflow information	All revenues and expenses during year, regardless of when cash is received or paid	Revenues for which cash is received during or soon after the end of the year; expenditures when goods or services have been received and the related liability is due during the year or soon thereafter	All revenues and expenses during the year, regardless of when cash is received or paid	All additions and deductions during the year, regardless of when cash is received or paid

GOVERNMENT-WIDE FINANCIAL STATEMENTS

The government-wide statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The statement of net assets includes all of the District's assets and liabilities. All of the current year's revenues and expenses are accounted for in the Statement of Activities regardless of when cash is received or paid.

The two government-wide statements report the District's net assets and how they have changed. Net assets – the difference between the District's assets and liabilities – are one way to measure the District's financial health or position.

Over time, increases or decreases in the District's net assets are an indicator of whether financial position is improving or deteriorating, respectively.

To assess the District's overall health, additional non-financial factors such as changes in the District's property tax base and the condition of school buildings and other facilities need to be considered.

In the government-wide financial statements, the District's activities are divided into two categories:

Governmental Activities: Most of the District's basic services are included here, such as regular and special education, transportation, and administration. Property taxes and state aid finance most of these activities.

Business-type Activities: The District charges fees to help cover the costs of certain services it provides. The District's nutrition program would be included here.

FUND FINANCIAL STATEMENTS

The fund financial statements provide more detailed information about the District's funds, focusing on its most significant or "major" funds. Funds are accounting devices that districts use to keep track of specific sources of funding and spending on particular programs.

Some funds are required by state law or by bond covenants.

The District establishes other funds to control and manage money for particular purposes, such as accounting for student activity funds or to show that it is properly using certain revenues such as federal grants.

The District has three kinds of funds:

Governmental Funds. Most of the District's basic services are included in governmental funds, which generally focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental funds statements provide a detailed short-term view that helps determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs.

The District's governmental funds include the General Fund, Special Revenue Funds, Debt Service Fund, and Capital Projects Fund.

Proprietary Funds. Services for which the District charges a fee are generally reported in proprietary funds. These funds are reported in the same way as the government-wide statements.

The Nutrition Fund and Student Construction Fund are the only proprietary funds that the District maintains.

Fiduciary Funds. The District is the trustee or fiduciary for the assets that belong to others such as scholarship funds.

The District is responsible for ensuring that the assets reported in these funds are used only for their intended purposes and by those to whom the assets belong. The District excludes these activities from the government-wide financial statements because it cannot use these assets to finance its operations.

FINANCIAL ANALYSIS OF THE DISTRICT AS A WHOLE

Comparative condensed financial statements are presented in Figure A-3.

Figure A-3 Condensed Statement of Net Assets (Expressed in Thousands)							
	Governmental Activities		Business type Activities		Total District		Total Change

Change in net assets	\$ 1,448	1,217	9	10	1,457	1,227	18.7%

Governmental Activities

The revenues and other financing sources for governmental activities were \$26,187,594 and expenses were \$24,740,495.

Figure A-5 presents the total and net cost of the District's major governmental activities: instruction, support services, and other expenses.

Figure A-5 Total and Net Cost of Governmental Activities (Expressed in Thousands)						
	Total Cost of Services		Change	Net Cost of Services		Change
	2010	2009	2009-2010	2010	2009	2009-2010
Instruction	\$ 15,048	15,847	-5.0%	9,914	12,126	-18.2%
Support services	7,476	6,677	12.0%	7,448	6,626	12.4%
Other expenses	2,216	2,526	-12.3%	1,262	1,668	-24.3%
Totals	\$ 24,740	25,050	-1.2%	18,624	20,420	-8.8%

- Federal and state governments subsidized certain programs with grants and contributions totaling \$5,147,441.
- The net cost of governmental activities was financed with \$8,448,974 in local property tax, \$2,808,634 in statewide sales and services taxes, \$8,417,072 in unrestricted state grants, and \$105,799 in interest on investments.
- The revenues and expenses for the District's governmental activities decreased due to lower unrestricted State grants, as well as the reduced revenue from interest on investments. The financial strength of the District is in a transition phase with lower revenues and increasing bond payments, causing a (3.3%) solvency ratio.

Business Type Activities

Revenues of the District's business type activities were \$1,165,975 and expenses were \$1,156,488. The Nutrition Fund comprises the primary business-type activity for the District. Revenues included \$596,182 in charges for services, \$569,363 in state and federal grants, and \$430 in interest on investments.

FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

As previously noted, the Oskaloosa Community School District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

The District's Governmental Fund balances decreased a total of \$2,988,786 over the previous fiscal year. The individual fund balance changes were as follows:

	Beginning Balance	Increase (Decrease)	Ending Balance
General Fund	\$ (290,405)	(171,923)	(462,328)
Capital Projects	6,108,552	(2,827,372)	3,281,180
Non-major Funds	479,517	10,509	490,026

The total disbursements for the governmental and proprietary funds were greater than receipts due to retirement of long-term debt, specifically sales tax revenue bonds. Budgeted revenues were both less and more than actual revenues due to the sudden change in funding at the State level during the fiscal year, as well as the use of Federal sources to compensate for the loss of State sources, which was not anticipated at the time of budget certification. Actual expenditures did not exceed budgetary amounts during the fiscal year.

In accordance with the Code of Iowa, the Board of Education annually adopts a budget following required public notice and hearing for all funds. This is referred to as the certified budget. It may be amended during the year utilizing similar statutorily prescribed procedures. The District's certified budget is prepared on a cash basis in accordance with generally accepted accounting principles. During the 2010 fiscal year, the District did not amend its budget.

CAPITAL ASSET AND DEBT ADMINISTRATION

At the end of the 2010 fiscal year, the District had invested in a broad range of capital assets including land, buildings, athletic facilities, computers, and audio-visual equipment, transportation equipment, and administrative offices.

Figure A-6 shows total investment in capital assets net of accumulated depreciation.

Figure A-6 Capital Assets, net of Depreciation (Expressed in Thousands)							
	Governmental Activities		Business type Activities		Total District		Total Change
	June 30,		June 30,		June 30,		June 30,

Totals	\$ 29,310	30,103	177	196	29,487	30,299	-2.7%

Long-Term Debt

Figure A-7 outlines the composition of the total long-term debt amount of \$11,437,815 for the District as of June 30, 2010.

During fiscal year 2002, the District's voters approved the issuance of local option sales and services tax revenue bonds not to exceed \$20,000,000.

Figure A-7 Outstanding Long-Term Obligations (Expressed in Thousands)			
	Total District		Total Change
	June 30,		June 30,
	2010	2009	2009-2010

Compensated absences	49	56	-12.5%
Other post employment benefits	54	27	100.0%
Totals	\$ 11,492	16,585	-30.7%

FACTORS BEARING ON THE DISTRICT'S FUTURE

A substantial part of the general fund revenues are determined by the Aid and Levy Worksheet that utilizes the District's certified enrollment to establish the Combined District Cost. The Certified Enrollment determined in October of 2010 indicated that funding related to enrollment will remain at its current level. The District's Administration will continue to monitor student enrollment as it relates to the state and federal funding generated.

A substantial part of General Fund expenditures are wages and benefits. A majority of the district's employees are covered by State-mandated collective bargaining agreements. The final step in the negotiation process is binding arbitration. If the negotiation process progresses to this level, the outcome may produce wages and benefits in excess of available funding. If this happens, administration will be forced to reduce the expenditure budget with cuts in staff.

Exhibit F

Oskaloosa Community School District
Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances
Governmental Funds to the Statement of Activities
Year ended June 30, 2010

Net change in fund balances - total governmental funds (Exhibit E) **\$ (2,988,786)**

Amounts reported for governmental activities in the statement of activities are different because:

Capital outlays to purchase or build capital assets are reported in governmental funds as expenditures. However, those costs are not reported in the Statement of Activities and are allocated over their estimated useful lives as depreciation expense in the Statement of Activities. The amounts of capital outlays and depreciation expense in the year are as follows:

Capital outlays	\$ 331,561	
Depreciation expense	<u>(1,124,662)</u>	(793,101)

Proceeds from issuing long-term liabilities provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the Statement of Net Assets. Repayment of long-term debt liabilities is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the Statement of Net Assets.

Bond principal repaid	4,920,000	
Capital lease payments	<u>232,467</u>	5,152,467

Interest on long-term debt in the Statement of Activities differs from the amount reported in the governmental funds because interest is recorded as an expenditure in the funds when due. In the Statement of Activities, interest expense is recognized as the interest accrues, regardless of when it is due.

95,331

Some expenses reported in the Statement of Activities do not require the use of current financial resources and, therefore, are not reported as expenditures in the governmental funds.

Early retirement	1,718	
Compensated absences	6,720	
Other post employment benefits	(27,250)	
		<u>(18,812)</u>

Change in net assets of governmental activities (Exhibit B) **\$ 1,447,099**

(1) **Summary of Significant Accounting Policies**

Oskaloosa Community School District is a political subdivision of the State of Iowa and operates public schools for children in grades pre-kindergarten through twelve. Additionally, the District either operates or sponsors various adult education programs. These courses include remedial education as well as vocational and recreational courses. The geographic area served includes the City of Oskaloosa, Iowa and the predominate agricultural territory in Mahaska county. The District is governed by a Board of Education whose members are elected on a non-partisan basis.

The District's financial statements are prepared in conformity with U.S. generally accepted accounting principles as prescribed by the Governmental Accounting Standards Board.

A. Reporting Entity

For financial reporting purposes, Oskaloosa Community School District has included all funds, organizations, agencies, boards, commissions and authorities. The District has also considered all potential component units for which it is financially accountable and other organizations for which the nature and significance of their relationship with the District are such that exclusion would cause the District's financial statements to be misleading or incomplete. The Governmental Accounting Standards Board has set forth criteria to be considered in determining financial accountability. These criteria include appointing a voting majority of an organization's governing body and (1) the ability of the District to impose its will on that organization or (2) the potential for the organization to provide specific benefits to or impose specific financial burdens on the District. The Oskaloosa Community School District has no component units which meet the Governmental Accounting Standards Board criteria.

Jointly Governed Organization - The District participates in a jointly governed organization that provides services to the District but does not meet the criteria of a joint venture since there is no ongoing financial interest or responsibility by the participating governments. The District is a member of the Mahaska County Assessor's Conference Board.

B. Basis of Presentation

Government-wide Financial Statements - The Statement of Net Assets and the Statement of Activities report information on all of the non-fiduciary activities of the District. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by tax and intergovernmental revenues, are reported separately from business type activities, which rely to a significant extent on fees and charges for service.

The Statement of Net Assets presents the District's non-fiduciary assets and liabilities, with the difference reported as net assets. Net assets are reported in three categories:

Invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation and reduced by outstanding balances for bonds, notes and other debt attributable to the acquisition, construction or improvement of those assets.

Restricted net assets result when constraints placed on net asset use are either externally imposed or imposed by law through constitutional provisions or enabling legislation.

Unrestricted net assets consist of net assets that do not meet the definition of the two preceding categories. Unrestricted net assets often have constraints on resources imposed by management which can be removed or modified.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those clearly identifiable with a specific function. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and 2) grants, contributions and interest restricted to meeting the operational or capital requirements of a particular function. Property tax and other items not properly included among program revenues are reported instead as general revenues.

Fund Financial Statements - Separate financial statements are provided for governmental, proprietary and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements. All remaining governmental funds are aggregated and reported as non-major governmental funds.

Fund accounting - The accounts of the District are organized on the basis of funds, each of which is considered to be a separate accounting entity. The operations of each fund are accounted for by providing a separate set of self-balancing accounts which comprise its assets, liabilities, reserves, fund balance/net assets, revenues and expenditures or expenses, as appropriate. The District has the following funds:

Governmental Fund Types: Governmental fund types are those funds through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance. The following are the District's major governmental funds:

General Fund: The General Fund is the general operating fund of the District. All general tax revenues and other receipts that are not allocated by law or contractual agreement to some other fund are accounted for in this fund. From the fund are paid the general operating expenses, including instructional, support and other costs.

Debt Service Fund: The Debt Service Fund is utilized to account for the payment of interest and principal on the District's general long-term debt.

Capital Projects Fund: The Capital Projects Fund is used to account for all resources used in the acquisition and construction of capital facilities.

The other governmental funds of the District are considered non-major and are as follows:

Special Revenue Funds: The Special Revenue Funds account for the revenue sources that are legally restricted to expenditures for specific purposes. These funds consist of the following:

Student Activity Funds: This fund accounts for transactions that occur due to student-related activities from groups and organizations such as athletic and activity events, fundraising and other extra-curricular or co-curricular activities.

Management Fund: This fund is authorized by Iowa Code Section 298.4 and accounts for transactions related to unemployment, early retirement, judgments and settlements and the cost of liability insurance as it relates to property and casualty.

Physical Plant and Equipment Levy (PPEL) Fund: This fund is authorized by Iowa Code 298.2 and accounts for transactions related to the improvement of facilities and grounds, construction of school houses, certain equipment expenditures and other expenditures authorized in Iowa Code 298.3.

Proprietary Fund Types: Proprietary fund types are used to account for the District's ongoing organizations and activities which are similar to those often found in the private sector. The measurement focus is upon income determination, financial position and cash flows. The following are the District's proprietary funds:

Enterprise Funds: Enterprise funds are used to account for those operations that are financed and operated in a manner similar to private business or where the District has decided that the determination of revenues earned, costs incurred and/or net income is necessary for management accountability. In accordance with Governmental Accounting Standards Board (GASB) Statement No. 20, *Accounting and Financial Reporting for Proprietary Funds and Other Governmental Entities that Use Proprietary Fund Accounting*, the District has elected to apply all applicable Financial Accounting Standards Board (FASB) pronouncements, issued on or before November 30, 1989, except for those pronouncements which conflict with or contradict GASB pronouncements.

The following enterprise funds of the District are considered non-major:

School Nutrition Fund: This fund accounts for transactions related to the school lunch, breakfast and summer food programs authorized by Iowa Code 283A.

Student Construction Fund: This fund accounts for student construction projects.

School Farm Account: This fund accounts for transactions relating to farm rental operations of the District.

Fiduciary Fund Types: Fiduciary funds account for assets held by the District in a trustee or agency capacity for the benefit of others and cannot be used to support District activities. The District has the following fiduciary fund type:

Private Purpose Trust Fund: This fund is used to account for assets held by the District under trust agreements which require income earned to be used to benefit individuals through athletic endowments.

C. Measurement Focus and Basis of Accounting

The government-wide, proprietary and fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property tax is recognized as revenue in the year for which it is levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been satisfied.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days after year end.

Property tax, intergovernmental revenues (shared revenues, grants and reimbursements from other governments) and interest associated with the current fiscal period are all considered to be susceptible to accrual. All other revenue items are considered to be measurable and available only when cash is received by the District.

Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, principal and interest on long-term debt, claims and judgments and compensated absences are recognized as expenditures only when payment is due. Capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

Under the terms of grant agreements, the District funds certain programs by a combination of specific cost-reimbursement grants and general revenues. Thus, when program expenses are incurred, there are both restricted and unrestricted net assets available to finance the program. It is the District's policy to first apply cost-reimbursement grant resources to such programs, and then general revenues.

The proprietary fund of the District applies all applicable GASB pronouncements, as well as the following pronouncements issued on or before November 30, 1989, unless these pronouncements conflict with or contradict GASB pronouncements: Financial Accounting Standards Board Statements and Interpretations, Accounting Principles Board Opinions, and Accounting Research Bulletins of the Committee on Accounting Procedure.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the District's Enterprise Funds are charges to customers for sales and services. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

The District maintains its financial records on the cash basis. The financial statements of the District are prepared by making memorandum adjusting entries to the cash basis financial records.

D. Assets, Liabilities and Fund Equity

The following accounting policies are followed in preparing the financial statements:

Cash, Pooled Investments and Cash Equivalents - The cash balances of most District funds are pooled and invested. Investments are stated at fair value except for the investment in non-negotiable certificates of deposit which are stated at cost.

For purposes of the statement of cash flows, all short-term cash investments that are highly liquid are considered to be cash equivalents. Cash equivalents are readily convertible to known amounts of cash and, at the day of purchase, have a maturity date no longer than three months.

Property Tax Receivable - Property tax in governmental funds is accounted for using the modified accrual basis of accounting.

Property tax receivable is recognized in these funds on the levy or lien date, which is the date the tax asking is certified by the Board of Education. Delinquent property tax receivable represents unpaid taxes for the current and prior years. The succeeding year property tax receivable represents taxes certified by the Board of Education to be collected in the next fiscal year for the purposes set out in the budget for the next fiscal year. By statute, the District is required to certify its budget in April of each year for the subsequent fiscal year. However, by statute, the tax asking and budget certification for the following fiscal year becomes effective on the first day of that year. Although the succeeding year property tax receivable has been recorded, the related revenue is deferred in both the government-wide and fund financial statements and will not be recognized as revenue until the year for which it is levied.

Property tax revenue recognized in these funds become due and collectible in September and March of the fiscal year with a 1½% per month penalty for delinquent payments; is based on January 1, 2008 assessed property valuations; is for the tax accrual period July 1, 2009 through June 30, 2010 and reflects the tax asking contained in the budget certified to the County Board of Supervisors in April, 2009.

Due from Other Governments - Due from other governments represents amounts due from the State of Iowa, various shared revenues, grants and reimbursements from other governments.

Inventories - Inventories are valued at cost using the first-in, first-out method for purchased items and government commodities. Inventories of proprietary funds are recorded as expenses when consumed rather than when purchased or received.

Capital Assets - Capital assets, which include property, furniture and equipment, are reported in the applicable governmental or business type activities columns in the government-wide Statement of Net Assets. Capital assets are recorded at historical cost. Donated capital assets are recorded at estimated fair market value at the date of donation. The costs of normal maintenance and repair that do not add to the value of the asset or materially extend asset lives are not capitalized. Capital assets are defined by the District as assets with an initial, individual cost in excess of the following thresholds and estimated useful lives in excess of two years.

<u>Asset Class</u>	<u>Amount</u>
Land	\$ 1,000
Buildings	1,000
Improvements other than buildings	1,000
Furniture and equipment:	
School Nutrition Fund equipment	500
Other furniture and equipment	1,000

Capital assets are depreciated using the straight line method over the following estimated useful lives:

<u>Asset Class</u>	<u>Estimated Useful Lives (In Years)</u>
Buildings	45 years
Improvements other than buildings	20-50 years
Furniture and equipment	5-15 years

Salaries and Benefits Payable - Payroll and related expenditures for teachers with annual contracts corresponding to the current school year, which are payable in July and August, have been accrued as liabilities.

Deferred and Unearned Revenue - Although certain revenues are measurable, they are not available. Available means collected within the current period or expected to be collected soon enough thereafter to be used to pay liabilities of the current period. Deferred revenue in the governmental fund financial statements represent the amount of assets that have been recognized, but the related revenue has not been recognized since the assets are not collected within the current period or expected to be collected soon enough thereafter to be used to pay liabilities of the current period. Deferred revenue consists of the succeeding year's property tax receivable and unspent grant proceeds.

Unearned revenue on the Statement of Net Assets consists of unspent grant proceeds as well as the succeeding year's property tax receivable that will not be recognized as revenue until the year for which it is levied.

Compensated Absences - District employees accumulate a limited amount of earned but unused vacation for subsequent use or for payment upon termination, death or retirement. A liability is recorded when incurred in the government-wide financial statements. A liability for these amounts is reported in governmental fund financial statements only for employees who have resigned or retired. The compensated absences liability has been computed based on rates of pay in effect at June 30, 2010. The compensated absences liability attributable to the governmental activities will be paid primarily by the General Fund.

Long-term Liabilities - In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the governmental activities column in the Statement of Net Assets.

Fund Equity - In the governmental fund financial statements, reservations of fund balance are reported for amounts not available for appropriation or legally restricted by outside parties for use for a specific purpose.

Restricted Net Assets - In the government-wide Statement of Net Assets, net assets are reported as restricted when constraints placed on net asset use are either externally imposed by creditors, grantors, contributors or laws and regulations of other governments or imposed by law through constitutional provisions or enabling legislation.

E. Budgets and Budgetary Accounting

The budgetary comparison and related disclosures are reported as Required Supplementary Information. During the year ended June 30, 2010, expenditures did not exceed the amounts budgeted.

(2) **Cash and Pooled Investments**

The District's deposits in banks at June 30, 2010 were entirely covered by federal depository insurance or by the State Sinking Fund in accordance with Chapter 12C of the Code of Iowa. This chapter provides for additional assessments against the depositories to insure there will be no loss of public funds.

The District is authorized by statute to invest public funds in obligations of the United States government, its agencies and instrumentalities; certificates of deposit or other evidences of deposit at federally insured depository institutions approved by the Board of Education; prime eligible bankers acceptances; certain high rated commercial paper; perfected repurchase agreements; certain registered open-end management investment companies; certain joint investment trusts; and warrants or improvement certificates of a drainage district.

At June 30, 2010, the District had investments as follows:

	<u>Amortized Cost</u>
Goldman Sachs Financial Square Treasury Obligations Fund	\$ 5,653
ISJIT Diversified Fund	1,718,136
United States Treasury Notes	172,147
Total	<u>\$ 1,895,936</u>

The investments are valued at an amortized cost pursuant to Rule 2a-7 under the Investment Company Act of 1940.

Credit risk. The investments in the Iowa Schools Joint Investment Trust and the Goldman Sachs Financial Square Treasury Obligations Fund were all rated Aaa by Moody's Investors Service. The investment in the United States treasury notes is not subject to credit risk rating.

(3) **Interfund Receivables/Payables**

The amounts of interfund receivables and payables are as follows:

Receivable Fund	Payable Fund	Amount
General	Special Revenue, Student Activity Fund	\$ 20,400
General	Physical Plant and Equipment Levy	60,102
General	Enterprise, School Nutrition	20,858
General	Enterprise, Student Construction	101,440
		<u>\$ 202,800</u>

(4) **Interfund Transfers**

The detail of interfund transfers for the year ended June 30, 2010 is as follows:

Transfer to	Transfer from	Amount
Debt Service	Capital Projects	\$ 5,156,226
Debt Service	Special Revenue, Physical Plant and Equipment Levy	286,762
Special Revenue, Physical Plant and Equipment Levy	Capital Projects	500,000
		<u>\$ 5,942,988</u>

Transfers generally move revenues from the fund statutorily required to collect the resources to the fund statutorily required to expend the resources.

(5) Capital Assets

Capital assets activity for the year ended June 30, 2010 was as follows:

	Balance Beginning of Year	Increases	Decreases	Balance End of Year
Governmental activities:				
Capital assets not being depreciated:				
Land	\$ 360,229	-	-	360,229
Total capital assets not being depreciated	360,229	-	-	360,229

School Infrastructure Local Option Sales and Services Tax Revenue Bonds

Details of the District's school infrastructure local option sales and services tax revenue bonded indebtedness are as follows:

Issue Dated August 1, 2003 Subordinate Series 2003C-422E			
Year ending June 30,	Interest Rates	Principal	Interest
2011	2.65%	\$ 1,235,000	58,367
2012	2.65%	1,275,000	25,374
		<u>\$ 2,510,000</u>	<u>83,741</u>

The local option (statewide) sales and services tax revenue bonds and school infrastructure local option sales and services tax revenue bonds were issued for the purpose of defraying a portion of the cost of school infrastructure. The bonds are payable solely from the proceeds of the local option sales and services tax revenues received by the District. The bonds are not a general obligation of the District. However, the debt is subject to the constitutional debt limitation of the District.

The resolutions providing for the issuance of the local option sales and services tax revenue bonds and school infrastructure local option sales and services tax revenue bonds include the following provisions:

- a) \$2,129,000 of the proceeds from the issuance of the revenue bonds shall be deposited to the Reserve Account to be used solely for the purpose of paying principal and interest on the bonds if insufficient money is available in the Sinking Account. The balance of the proceeds shall be deposited in the Project Account.
- b) All proceeds from the local option (statewide) sales and services tax shall be placed in a Revenue Account.
- c) Monies in the Revenue Account shall be disbursed to make deposits into a Sinking Account to pay the principal and interest requirements of the revenue bonds for the fiscal year.
- d) Any monies remaining in the Revenue Account after the required transfer to the Sinking Account may be transferred to the Project Account to be used for any lawful purpose.

Early Retirement Payable

The District offers a voluntary early retirement plan for its certified employees, administrators, nurses and directors. Eligible employees must be between ages fifty-five and sixty-five and employees must have completed twenty years of continuous service to the District or fifteen years with the District and then may add one half the years of service with another District (to a maximum of five years) to meet the twenty year requirement. Employees must complete an application which is required to be approved by the Board of Education. The early retirement incentive for each eligible employee is a flat dollar lump sum payment based upon the years of service the employee had as of the retirement year. The early retiree will also be eligible for monthly insurance premium benefits up to a maximum \$150 per month. This benefit will be discontinued when the retirees have been retired for nine years, if the retiree becomes eligible for Medicare, or when the retiree reaches age 65, whichever occurs first. Early retirement benefits paid during the year ended June 30, 2010, totaled \$90,817.

(7) Pension and Retirement Benefits

The District contributes to the Iowa Public Employees Retirement System (IPERS), which is a cost-sharing multiple-employer defined benefit pension plan administered by the State of Iowa. IPERS provides retirement and death benefits which are established by state statute to plan members and beneficiaries. IPERS issues a publicly available financial report that includes financial statements and required supplementary information. The report may be obtained by writing to IPERS, P.O. Box 9117, Des Moines, Iowa, 50306-9117.

Plan members are required to contribute 4.10% of their annual covered salary and the District is required to contribute 6.35% of annual covered salary. Contribution requirements are established by state statute. The District's contributions to IPERS for the years ended June 30, 2010, 2009 and 2008 were \$883,781, \$863,243, and \$792,593, respectively, equal to the required contributions for each year.

(8) Other Post-Employment Benefits (OPEB)

The District implemented GASB Statement No. 45, Accounting and Financial Reporting by Employers for Post-employment Benefits other Than Pensions during the year ended June 30, 2010.

Plan Description - The District operates a retiree benefit plan which provides medical and prescription drug benefits for retirees and their spouses. There are 274 active and 25 retired members in the plan. Participants must be age 55 or older at retirement and must have been employed full time by the District for a minimum of 20 years.

The medical/prescription drug coverage is provided through a self-funded insurance program administered by a third party administrator. Retirees under age 65 pay the same premium for the medical/prescription drug benefit as active employees, which results in an implicit subsidy and an OPEB liability.

Funding Policy - The contribution requirements of plan members are established and may be amended by the District. The District currently finances the retiree benefit plan on a pay-as-you-go basis.

Annual OPEB Cost and Net OPEB Obligation - The District's annual OPEB cost is calculated based on the annual required contribution (ARC) of the District, an amount actuarially determined in accordance with GASB Statement No. 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities over a period not to exceed 30 years.

The following table shows the components of the District's annual OPEB cost for the year ended June 30, 2010, the amount actually contributed to the plan and changes in the District's net OPEB obligation:

Annual required contribution	\$ 157,000
Contributions made	(128,000)
Increase in net OPEB obligation	29,000
Net OPEB obligation beginning of year	<u>29,000</u>
Net OPEB obligation end of year	<u>\$ 58,000</u>

For calculation of the net OPEB obligation, the actuary has set the transition day as July 1, 2008. The end of year net OPEB obligation was calculated by the actuary as the cumulative difference between the actuarially determined funding requirements and the actual contributions for the year ended June 30, 2010.

The required contribution is based on projected pay-as-you-go financing. For fiscal year 2010, the District contributed \$128,000. Retiree and active members receiving benefits contributed \$183,000 through their required contributions, depending on which of the three plans offered by the District the employee participated in.

The District's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan and the net OPEB obligation as of June 30, 2010 are summarized as follows:

Year Ended	Annual OPEB Cost	Percentage of Annual OPEB Cost Contributed	Net OPEB Obligation
June 30, 2010	\$157,000	81.53%	\$58,000

Funded Status and Funding Progress - As of July 1, 2008, the most recent actuarial valuation date for the period July 1, 2008 through June 30, 2010, the actuarial accrued liability was \$1,461,000, with no actuarial value of assets, resulting in an unfunded actuarial accrued liability (UAAL) of \$1,461,000. The covered payroll (annual payroll of active employees covered by the plan) was approximately \$13,397,116, and the ratio of the UAAL to covered payroll was 10.9%. As of June 30, 2010, there were no trust fund assets.

Actuarial Methods and Assumptions - Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality and the health care cost trend. Actuarially determined amounts are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information in the section following the Notes to Financial Statements, will present multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Projections of benefits for financial reporting purposes are based on the plan as understood by the employer and the plan members and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

As of the July 1, 2008 actuarial valuation date, the unit credit actuarial cost method was used. The actuarial assumption includes a 4.5% discount rate based on the District's funding policy. The projected annual medical trend rate is 11%. The ultimate medical trend rate is 5%. The medical trend rate is reduced 0.5% each year until reaching the 5% ultimate trend rate.

Mortality rates are from the RP2000 Group Annuity Mortality Table, applied on a gender-specific basis. Annual retirement and termination probabilities were developed from the retirement probabilities from the IPERS Actuarial Report as of June 30, 2007 and applying the termination factors used in the IPERS Actuarial Report as of June 30, 2008.

Projected claim costs of the medical plan are \$672 per month for retirees who have attained the age of 60. The UAAL is being amortized as a level percentage of projected payroll expense on an open basis over 30 years.

(9) Risk Management

The District is exposed to various risks of loss related to torts; theft; damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. These risks are covered by the purchase of commercial insurance. The District assumes liability for any deductibles and claims in excess of coverage limitations. Settled claims from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

(10) Area Education Agency

The District is required by the Code of Iowa to budget for its share of special education support, media and educational services provided through the area education agency. The District's actual amount for this purpose totaled \$954,301 for the year ended June 30, 2010 and is recorded in the General Fund by making a memorandum adjusting entry to the cash basis financial statements.

(11) Restatements

The beginning balances of the business-type activities and the nutrition fund were adjusted upwards by \$4,288 in order to account for kitchen equipment that was inadvertently omitted from the prior year report. The beginning balances of the governmental activities and the general fund were adjusted upwards by \$36,382 due to a change in prior year accruals.

(12) Financial Condition

The General Fund, Non-major Special Revenue Fund-Management Levy and Enterprise Fund-Student Construction had deficit undesignated, unreserved fund balances at June 30, 2010 of \$462,328, \$94,668 and \$106,641 respectively. In addition, the Special Revenue Fund-Activity Fund had several individual account deficit balances.

Oskaloosa Community School District
Notes To Required Supplementary Information - Budgetary Reporting
Year Ended June 30, 2010

This budgetary comparison is presented as Required Supplementary Information in accordance with *Governmental Accounting Standard* Board Statement No. 41 for governments with significant budgetary perspective differences resulting from not being able to present budgetary comparisons for the General Fund and each major Special Revenue Fund.

In accordance with the Code of Iowa, the Board of Education annually adopts a budget following required public notice and hearing for all funds except Private Purpose Trust and Agency Funds. The budget may be amended during the year utilizing similar statutorily prescribed procedures. The District's budget is prepared on a GAAP basis.

Formal and legal budgetary control for the certified budget is based upon four major classes of expenditures known as functions, not by fund. These four functions are instruction, support services, non-instructional programs and other expenditures. Although the budget document presents function expenditures or expenses by fund, the legal level of control is at the aggregated function level, not by fund. The Code of Iowa also provides District expenditures in the General Fund may not exceed the amount authorized by the school finance formula.

During the year ended June 30, 2010, expenditures did not exceed the amounts budgeted.

Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards

To the Board of Education of
Oskaloosa Community School District:

We have audited the accompanying financial statements of the governmental activities, the business type activities, each major fund and the aggregate remaining fund information of the Oskaloosa Community School District, Oskaloosa, Iowa, as of and for the year ended June 30, 2010, which collectively comprise the District's basic financial statements listed in the table of contents, and have issued our report thereon dated January 31, 2011. We conducted our audit in accordance with U.S. generally accepted auditing standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered Oskaloosa Community School District's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Oskaloosa Community School District's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of Oskaloosa Community School District's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. *A material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Oskaloosa Community School District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, non-compliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of non-compliance or other matters that are required to be reported under *Government Auditing Standards*. However, we noted certain immaterial instances of non-compliance or other matters that are described in Part IV of the accompanying Schedule of Findings and Questioned Costs.

Comments involving statutory and other legal matters about the District's operations for the year ended June 30, 2010 are based exclusively on knowledge obtained from procedures performed during our audit of the financial statements of the District. Since our audit was based on tests and samples, not all transactions that might have had an impact on the comments were necessarily audited. The comments involving statutory and other legal matters are not intended to constitute legal interpretations of those statutes.

Oskaloosa Community School District's responses to findings identified in our audit are described in the accompanying Schedule of Findings and Questioned Costs. While we have expressed our conclusions on the District's responses, we did not audit Oskaloosa Community School District's responses and, accordingly, we express no opinion on them.

This report, a public record by law, is intended solely for the information and use of the officials, employees and citizens of Oskaloosa Community School District and other parties to whom Oskaloosa Community School District may report, including federal awarding agencies and pass-through entities. This report is not intended to be and should not be used by anyone other than these specified parties.

We would like to acknowledge the many courtesies and assistance extended to us by personnel of Oskaloosa Community School District during the course of our audit. Should you have any questions concerning any of the above matters, we shall be pleased to discuss them with you at your convenience.

CERTIFIED PUBLIC ACCOUNTANTS

**Independent Auditor's Report on Compliance with Requirements Applicable
to Each Major Program and on Internal Control over Compliance
in Accordance with OMB Circular A-133**

To the Board of Education of Oskaloosa Community School District:

Compliance

We have audited the compliance of Oskaloosa Community School District with the types of compliance requirements described in U.S. Office of Management and Budget (OMB) Circular A-133 *Compliance Supplement* that are applicable to each of its major federal programs for the year ended June 30, 2010. Oskaloosa Community School District's major federal programs are identified in Part I of the accompanying Schedule of Findings and Questioned Costs. Compliance with the requirements of laws, regulations, contracts and grant agreements applicable to each of its major federal programs is the responsibility of Oskaloosa Community School District's management. Our responsibility is to express an opinion on Oskaloosa Community School District's compliance based on our audit.

We conducted our audit of compliance in accordance with U.S. generally accepted auditing standards, the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether non-compliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Oskaloosa Community School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on Oskaloosa Community School District's compliance with those requirements.

In our opinion, Oskaloosa Community School District complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended June 30, 2010.

Internal Control Over Compliance

The management of Oskaloosa Community School District is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grant agreements applicable to federal programs. In planning and performing our audit, we considered Oskaloosa Community School District's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Oskaloosa Community School District's internal control over compliance.

Our consideration of internal control over compliance was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control over compliance that might be significant deficiencies or material weaknesses and, therefore, there can be no assurance all deficiencies, significant deficiencies or material weaknesses have been identified.

A deficiency in the District's internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance such that there is a reasonable possibility material noncompliance with a type of compliance requirement of a federal program will not be prevented or detected and corrected on a timely basis.

Oskaloosa Community School District's responses to the findings identified in our audit are described in the accompanying Schedule of Findings and Questioned Costs. While we have expressed our conclusions on the District's responses, we did not audit Oskaloosa Community School District's responses and, accordingly, we express no opinion on them.

This report, a public record by law, is intended solely for the information and use of the officials, employees and citizens of Oskaloosa Community School District and other parties to whom Oskaloosa Community School District may report, including federal awarding agencies and pass-through entities. This report is not intended to be and should not be used by anyone other than these specified parties.

January 31, 2011

Part I: Summary of the Independent Auditor's Results:

- (a) Unqualified opinions were issued on the financial statements.
- (b) No material weaknesses in internal control over financial reporting were disclosed by the audit of the financial statements.
- (c) The audit did not disclose any non-compliance which is material to the financial statements.
- (d) No material weaknesses in internal control over major programs were disclosed by the audit of the financial statements.
- (e) An unqualified opinion was issued on compliance with requirements applicable to each major program.
- (f) The audit disclosed no audit findings which were required to be reported in accordance with the Office of Management and Budget Circular A-133, Section .510(a).
- (g) Major programs were as follows:
 - Clustered programs:
 - CFDA Number 10.553 – School Breakfast Program
 - CFDA Number 10.555 – National School Lunch Program
 - CFDA Number 84.394 – ARRA – State Fiscal Stabilization Fund (SFSF) – Education State Grants, Recovery Act
- (h) The dollar threshold used to distinguish between Type A and Type B programs was \$300,000.
- (i) Oskaloosa Community School District qualified as a low-risk auditee.

Part II: Findings Related to the Financial Statements:

INSTANCES OF NON-COMPLIANCE

No matters were noted.

INTERNAL CONTROL DEFICIENCIES

No matters were noted.

Part III: Findings and Questioned Costs for Federal Awards:

INSTANCES OF NON-COMPLIANCE

No matters were noted.

INTERNAL CONTROL DEFICIENCIES

No matters were noted.

Part IV: Other Findings Related to Statutory Reporting:

IV-A-10 Certified Budget – Expenditures for the year ended June 30, 2010, did not exceed the certified budget amounts.

IV-B-10 Questionable Disbursements - No disbursements that may not meet the requirements of public purpose as defined in an Attorney General's opinion dated April 25, 1979 were noted. However, we did note a significant number of disbursements were missing documentation of proper approvals.

Recommendation – The District should review the procedures in place and make the necessary adjustments.

Response – The District will review procedures and adjust as necessary.

Conclusion – Response accepted.

IV-C-10 Travel Expense - No expenditures of District money for travel expenses of spouses of District officials or employees were noted. No travel advances to District officials or employees were noted.

IV-D-10 Business Transactions – No business transactions between the District and District officials or employees were noted.

IV-E-10 Bond Coverage - Surety bond coverage of District officials and employees is in accordance with statutory provisions. The amount of coverage should be reviewed annually to ensure that coverage is adequate for current operations.

IV-F-10 Board Minutes - No transactions requiring Board approval which had not been approved by the Board were noted.

IV-G-10 Certified Enrollment – No variances in the basic enrollment data certified to the Department of Education were noted.

IV-H-10 Deposits and Investments - No instances of noncompliance with the deposit and investment provisions of Chapter 12B and 12C of the Code of Iowa and the District's investment policy were noted.

IV-I-10 Certified Annual Report - The Certified Annual Report was filed with the Department of Education timely and we noted no significant deficiencies in the amounts reported.

IV-J-10 Deficit Balances - The General Fund, Special Revenue Fund-Management Levy and the Enterprise Fund-Student Construction had deficit balances as of June 30, 2010. The Special Revenue Fund-Student Activity had several deficit amounts as of June 30, 2010.

Recommendation - The District should continue to monitor these accounts and investigate alternatives to eliminate these deficits.

Response - We are monitoring these situations. We are currently analyzing alternatives to reverse these deficit balances. We must also note that the overall fund balance in the Student Activity Fund is positive.

Conclusion - Response accepted.

IV-J-10 Categorical Funding – No instances were noted of categorical funding used to supplant rather than supplement other funds.

Oskaloosa Community School District
Schedule of Findings and Questioned Costs
Year Ended June 30, 2010

- IV-K-10 Statewide Sales and Services Tax – No instances of non-compliance with the use of the statewide sales and services tax revenue provisions of Chapter 423F.3 of the Code of Iowa were noted.

Pursuant to Chapter 423F.5 of the Code of Iowa, the annual audit is required to include certain reporting elements related to the statewide sales and services tax. For the year ended June 30, 2010, the District's financial activity and other required information for the statewide sales and services tax are as follows:

Beginning balance	\$	-
Statewide sales, services and use tax revenue		2,808,634
Expenditures/transfers out		
Debt service for school infrastructure:		
Revenue debt		<u>2,808,634</u>
	\$	<u>-</u>

The statewide sales, services and use tax revenue received during the year ended June 30, 2010 is equivalent to a reduction in the following levies:

	Per \$1000 of Taxable Valuation	Property Tax Dollars
Debt service levy	\$ 5.30374	\$ 2,808,634
